

## Luncheon in Phnom Penh with Current & Past College Students

Last summer my mother-in-law, Pam Shuman and I were able to travel to Cambodia and meet most of the students you have helped sponsor the past 26 years, first with my father Ron Abney and for the past 10 years with me. This was, as you can imagine an unbelievable experience. After meeting these amazing people my life will never be the same. With all the tragedy and loss they have experienced they are still the kindest and hardest working individuals I have ever met. I now have 47 new children in my family...and all college

graduates. This includes 2 doctors, a veterinarian, 9 IT managers, several financial managers and 3 nurses. There are also 4 couples that met at the orphanage as children, went to college, got married and are now starting their own families. The children in the orphanage know that when they graduate high school they will have a full college scholarship waiting for them. With a good education these bright young people are changing their lives for the better and in so doing changing the face and future for a better Cambodia.
